

The Brush Guide

FAT HOG

History of the Hog

The Hog was born with one mission:

To get the job right, first time, every time, with no mistakes.

With Fat Hog, you get top quality decorating products.

You get a cracking result. And you get an easier life.

Fat Hog is made for professionals, by professionals with over 115 years experience in making specialist decorating products.

The new Fat Hog brush ranges give you the best tools for every job and for any budget.

For the definitive top notch finish, Fat Hog Evolution has been engineered to deliver ultimate performance - brushes that are smarter, stronger and faster than the rest.

If you fancy a product that's a bit clever, rely on Fat Hog's Trade Choice + range boasting high quality synthetic blends and natural bristle options encompassing enhanced product features for a great professional finish.

If no fuss is what you're after, the Trade Choice range gives trade quality results at superb prices, just the job when budgets are tight.

The best tools for any job? Fat Hog. And no mistake.

Be a Breed Apart

Invest in the best

For the best results always buy quality tools, your reputation depends on it! A quality tool won't let you down even when using budget paint. You can always rely on Fat Hog to help you achieve a professional finish.

Prepare for work

Before use, rinse your brush and leave it for 5 minutes to dry for an improved finish. Keep your brush in top condition with its reusable keeper.

Keep it clean

Clean your brush immediately after use and try to avoid excess soaking. For best results use a brush comb when cleaning as this will prevent paint build up during use.

• Water based paint

After using water based paint, wash your brush with warm water and detergent, then rinse with clean water.

• Solvent based paint

After using solvent based paint, wash and rinse your brush with the appropriate brush cleaning solvent. Finish with warm water and detergent before rinsing with clean water.

After undergoing specialist expert development the Fat Hog Evolution brush range is specifically designed to be smarter, stronger and faster. Offering exceptional paint application and the finest finish compared to other products on the market Fat Hog Evolution truly is a different animal.

Featuring intelligent Symetech and Bristech technologies, Fat Hog Evolution brushes deliver outstanding results for all paint types. Intelligent technology ensures whatever the paint type you can expect ultimate control, optimum release and the perfect finish.

Backing up the entire Evolution range is a **ROCK SOLID GUARANTEE** providing a 28-day no quibble money back guarantee if you are not completely satisfied with any Evolution product.

(For full terms and conditions on the Rock Solid Guarantee please see Page 12).

- > **SMARTER** Fat Hog Evolution has been designed by the experts and utilises the latest intelligent technologies for outstanding performance qualities.
- > **STRONGER** Fat Hog has already proven its fearsome power when it comes to endurance but Evolution has raised the bar even further. Designed for heavy-duty professional application the new improved Hog is going to take some wearing down.
- > **FASTER** Fat Hog Evolution has exceptional recovery power to enable a highly efficient professional finish first time every time.

Duroc - Ultimate paint loading and release

Made from a unique blend of DuPont™ Chinex® and polyester filaments, the soft tips deliver a smooth finish in solvent and water based paints, while deep filament flagging creates maximum pick up. A thermally fused resin and wedge system ensures ultimate durability.

- > 100% synthetic making its life expectancy 5 times greater than that of a bristle brush
- > Deep filament flagging gives improved spread and ensures maximum pick up
- > Reversed bevelling gives a chiselled more controlled tip for cutting in
- > Barewood beavertail FSC handle
- > Rust resistant stainless steel ferrule
- > Easy clean

PRODUCT CODE	SIZE
FI0180	1" (25mm)
FI0190	1.5" (38mm)
FI0200	2" (50mm)
FI0220	3" (75mm)
FI0230	3 Piece Box Set (1", 1.5", 2")

Moura - Ultimate control for the finest finish

Made from an innovative blend of DuPont™ Chinex® and natural Chungking bristle, the soft tips deliver a fine totally controlled finish in solvent based paints, while deep filament flagging gives optimum pick up and release.

The Moura gives the user the comfort and feel of a natural bristle product while incorporating the performance attributes of the latest innovative synthetic filaments - all the strengths none of the weaknesses!

- > Natural Chungking bristle enhanced with DuPont™ Chinex® filaments delivers ultimate control for the finest finish
- > Thermally fused resin and wedge system for ultimate durability
- > Optimum pick up and release offering exceptional paint lay off with a chisel edge
- > Ergonomically designed kaiser shape handle for comfort
- > Rust resistant stainless steel ferrule
- > Easy clean
